## WORK EXPERIENCE

### Software Engineer Sparkstrand (Remote)

04/2025 - 07/2025

Farringdon, London, England

#### Achievements/Tasks

- Developed and enhanced features using React, Next.js, and TypeScript.
- Improved UI/UX with Tailwind CSS and plain CSS.
- Resolved complex TypeScript build errors to ensure smooth project builds.
- Used GitHub workflows: branch creation, commits, PRs, code reviews, and merges.

### Full-Stack Developer Yulcom Technologies (Remote)

03/2024 - 06/2024

Montreal, Quebec, Canada

#### Achievements/Tasks

- Developed server-side logic and business processes with C# and ASP.NET Core.
- Developed dynamic and responsive web applications using Angular. Made use of TypeScript to write client-side logic.
- Used CI/CD pipelines such as GitHub Actions and GitLab CI for automated testing and deployment.

### Frontend Developer Greenlife Pharmaceuticals Ltd.

02/2023 - 11/2023

Ilupeju, Lagos, Nigeria

#### Achievements/Tasks

- Developed responsive web applications using React, making use of React hooks like useState to manage component state, and Redux for global management.
- Effectively handled errors, API responses and data manipulation.
- Deployed applications to GitHub Pages and Railway for static site and dynamic hosting respectively.
- Significantly improved UI/UX in existing web applications.

## EDUCATION

### B.Sc Computer Science

Augustine University, Ilara-Epe, Lagos, Nigeria

10/2018 - 10/2022

2nd Class Upper honours

### Senior School Certificate Examination

WestHills High School

2011 - 2017

Lagos, Nigeria

## SKILLS

Frontend: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React, Redux, Next.js, Angular, TypeScript

Backend: Python, Django, PHP, C#, ASP. NetCore, Node.js

Mobile: Flutter, React-Native

Databases: MySQL, PostgreSQL, Microsoft SQL

CI/CD: GitLab CI, GitHub Actions

Version Control: Git, GitHub

Testing Tools: Jest, React Testing Library

Soft skills: Organization, Time Management, Attention to Detail, Agile Teamwork, Problem Solving, Creativity, Communication, Adaptability, Collaboration, Continuous Learning, Innovation.

## NOTABLE PROJECTS

### Sales Report App

- This is a software that helps track and analyze sales data. It is used to monitor sales performance, generate insights, and make informed decisions about sales strategies. Created this single page application using React and Node.js.

### ERP Solution

- This software streamlines and automates industrial processes and activities, allowing different departments to communicate and share data more efficiently. Implementing this system brings numerous benefits including improved efficiency, better collaboration between departments, enhanced data accuracy, and saved cost through streamlined processes. Created this web application using React, Redux, and Node.js.

### Trip Planner App

- This application optimizes trucking routes with geocoding, map routing, fuel/rest stop logic, and ELD-compliant driving logs, ensuring efficiency and a seamless user experience. Created this single page application using React, Python and Django.

## CERTIFICATIONS

NYSC Certificate (11/2022 - 11/2023)

B.Sc Computer Science (10/2022)
