Objective

I am a skilled software developer with over six years of experience specializing in building robust RESTful APIs and dynamic web applications. My expertise spans a wide range of technologies, including Node.js, PHP (Laravel, Lumen), JavaScript (React.js, Vue.js), Python (Flask, Django), and WordPress. I excel in problem-solving and efficiently troubleshooting issues, with a strong command of Git for version control. My experience includes API testing with Postman, and extensive work with databases like MongoDB, PostgreSQL, and MySQL. Passionate about continuous learning, I stay updated with the latest trends and best practices in software development. I am committed to driving innovation and delivering high-quality solutions, eager to contribute to projects that demand excellence and creativity.

Experience

- Lantan Tech (Lagos)** October 2024 - Present
Backend Developer
 - Developed and implemented payment processing algorithms: Designed and integrated payment gateways to facilitate seamless transactions.
 - Built financial data analytics tools: Created data visualization dashboards to provide insights on financial trends and user behavior.
 - Implemented security measures: Ensured the security and integrity of financial data by implementing robust encryption and authentication protocols.
 - Developed features to enable users to search, filter, and view properties.
 - Integrated mapping and geolocation services: Incorporated mapping APIs to provide users with location-based property information.
 - Developed property valuation and analytics tools: Created algorithms to estimate property values and provide market insights.
- Inside Success - United Kingdom(Remote)** February 26th 2024 - 5th April 2025
Backend Developer
 - Lead a team of Developers comprising of frontend, ui/ux and mobile developer to deliver a fully functional music app(MySound).
 - Performance Optimization: Speed Optimization: Optimizing site and app speed and performance through code architecture and optimization.
 - Project Management: Managing timelines, deliverables, and client expectations throughout the development process.
 - Testing and Deployment: Quality Assurance: Conducting thorough testing to identify and fix bugs on the API before the site goes live.
- MyShowroom - Enugu Nigeria** May 2021 - October 2023
Backend Developer
 - Developed and maintained API applications for an e-commerce company, utilizing Laravel as the primary programming language, delivering user-friendly shopping experiences for customers.
 - Integrated with payment gateways, enabling seamless and secure transactions within the mobile app, resulting in increased conversion rates and customer satisfaction.
 - Implemented personalized product recommendations and push notifications, enhancing user engagement and driving repeat purchases.

- Conducted thorough testing and debugging to identify and fix any software defects, ensuring the stability and performance of the web app for optimal customer experience.

- **Pasyl Tech Innovations - Enugu Nigeria**

January 2020 - March 2021

Backend Developer

- Developed and maintained backend for web applications using Laravel and php for a POS (Point of Sale) company, delivering rich solutions to streamline business operations and enhance customer experiences.
- Collaborated with product managers and UX designers to translate requirements and wireframes into high-quality solutions, ensuring a seamless operation for the POS application.
- Implemented secure payment processing functionalities, integrating third-party payment gateways and ensuring compliance with industry standards and regulations.
- Setup CI/CD for web app deployment on different platforms
- Conducted thorough testing and debugging to identify and resolve any software defects or performance issues, ensuring the stability and reliability of the POS.

- **Centadesk - Enugu Nigeria**

January 2019 - November 2019

Backend Developer

- Developed and maintained a cutting-edge web application using the php laravel framework.
- Took a lead role in the architecture, design, and development of web app features, collaborating with cross-functional teams to deliver robust and scalable solutions.
- Conduct thorough code reviews to ensure code quality, adherence to coding standards, and maintainability. Implement effective testing strategies to identify and fix bugs, and optimize app performance.
- Collaborate closely with product managers, UX/UI designers, frontend engineers, and other stakeholders to translate requirements into technical specifications and deliver exceptional solutions.
- Document architectural decisions, development processes, and system configurations to facilitate knowledge sharing and maintain an up-to-date codebase.
- Stay updated with the latest web development trends, tools, and technologies, and proactively identifies opportunities for innovation and improvement within the web app development landscape.
- Provide technical guidance, mentorship, and support to junior developers, fostering a culture of continuous learning and growth within the backend engineering team.

- **Techo Craft ICT - Enugu, Nigeria.**

January 2018 - January 2019

Backend Developer (internship)

- Write clean, maintainable code and advocate for best practices.
- Integrate both external and internal APIs into web applications with Laravel and Python.
- Evaluate and choose technology and libraries that are appropriate to incorporate into the company's products.
- Work closely with the team to maintain and improve current web development projects.
- Collaborated with product managers and UX designers to translate requirements and wireframes into high-quality, user friendly app, ensuring a seamless experience.

Education

- **Federal School of Dental Technology and Therapy Enugu.**

2015

Dental Technology. B.Tech
Second Class Upper

- **Ignatius Ajuru University of Education (IAUE) Port Harcourt**

2024

Health Safety Education
Second Class Upper

Skills

- Laravel

- Php
- Node Js
- Python
- Django
- Flask
- JavaScript
- MySQL
- MongoDB
- Postman
- SQL
- Git/Github
- MVVM
- MVC
- Vs Code
- AWS
