PROFILE

Chidozie is an ambitious problem solver with a passion for online businesses, and who would like to join a team of like-minded developers. Chidozie has much experience of creating logical and innovative solutions to complex problems. He is thorough and precise in everything he does, and has a keen interest in technology, mobile applications and user experience. As someone who takes responsibility for his own personal development, he is continually evaluating and upgrading his skills so that he stays at the cutting edge of web development. He is a natural problem solver, who has proven himself by successfully completing projects for IT consultancies, software houses, web design agencies, and IT departments.

He is a results-oriented Web Application Developer and Online Business Developer with training and enterprise experience in Web site design and layout and in all stages of design, coding, and testing of Web applications, and in the formation, planning, and implementation of online business ventures.

Right now Chidozie is looking for a suitable position with a company where outstanding performance is recognized and where he can work on a variety of high profile projects.

KEY SKILLS

Professional

- Able to organize own workload effectively and prioritize tasks.
- Can quickly understand business requirements and then translate these into functional requirements.
