Profile

I am a full stack software developer with three years of experience in software development life cycle, analysis and design. My area of expertise includes core front end development using HTML, CSS, Java- Script, j-Query, and Vue JS and back end development using Microsoft SQL Server, MySQL, .Net Core, and PHP/Laravel. I am a very good team player and tech savvy, looking for a reputable company to grow and gain hands-on expertise on applicable skills.

Skills

- HTML, CSS, JavaScript, J-Query, Vue Js, React
- MSSQL, MySQL, PostgreSQL
- Docker, Render, Jira, Git/GitHub, CI/CD
- Excellent communication skills
- C#, .Net Core, MVC, Entity Framework Core
- PHP/ Laravel
- Agile Methodologies
- Attention to details

Professional Experience

2023/12 – present
Lagos, Nigeria

C#, .Net Software Engineer

Decagon Institute

- Collaborated with a team of developers to spearhead the development efforts for a Reward Your Teacher (RYT) project using C#, .Net Core MVC.
- Designed and implemented the core logic responsible for retrieving transfer transaction histories, showcasing a strong analytical and problem-solving approach.
- Ensured the smooth and efficient functioning of the transfer transaction history module, contributing to the overall success and reliability of the RYT project.
- Worked effectively within a team environment, demonstrating the ability to integrate individual components seamlessly and contribute to the project's overall objectives (CI/CD).
- Implemented optimization strategies for the transfer transaction history retrieval, enhancing system efficiency and responsiveness, thereby contributing to an improved user experience.

2023/10 – 2024/01
Lagos, Nigeria

Associate Software Engineer

Decagon Institute

- Applied ASP.Net Core, Entity Framework Core, and SQL Server to develop a variety of websites, showcasing versatility in implementing back-end solutions and integrating front-end technologies for diverse web projects.
- Implemented a microservice architecture to construct a set of diverse websites, leveraging independent and modular services to enhance scalability, maintainability, and flexibility.
- Practiced Agile methodologies in project execution, fostering iterative development, collaboration, and adaptability to evolving project needs while ensuring efficient and timely delivery of website solutions.

2023/09 – 2023/11
Lagos, Nigeria

Full Stack Laravel Developer

Allsmartcare

- Led a team comprising a front-end and back-end developer, overseeing their collaborative efforts throughout the redesign process of the Allsmart website. Facilitated effective communication and coordination to ensure a cohesive approach to the project.
- Managed the redesign by leveraging technologies such as HTML, CSS, JavaScript, jQuery, Laravel, MySQL, and API integrations. Implemented a strategic plan to overhaul the site's functionality and aesthetics.
- Directed the team's efforts toward a successful redesign that met the project objectives. Utilized a combination of front-end and back-end technologies to enhance user experience, functionality, and performance.
- Conducted thorough quality checks and oversight at various stages of development, ensuring adherence to standards, functionality across devices, and seamless integration of APIs for improved site capabilities.

2022/05 – 2022/12
Port Harcourt, Nigeria

Full Stack PHP/Laravel Developer

Bankable Wisdom Solution Ltd

- Expanded the functionality and user experience of the website by developing and integrating additional pages to both the admin and user sides. Implemented new features and improved existing interfaces using PHP and Laravel, ensuring a seamless and user-friendly platform.
- Led the migration process by transferring files and introducing additional tables to the existing database structure. Ensured data integrity and optimized database performance to accommodate new functionalities and meet evolving business requirements.
- Collaborated with the team to troubleshoot technical issues, resolve bugs, and enhance website functionalities. Engaged in proactive problem-solving, ensuring a stable and reliable web application.
