PROFILE SUMMARY

Experienced PHP Developer proficient in crafting high-quality software solutions and driving project success through thorough code review and optimization. Skilled in PHP, Laravel, JavaScript, MySQL, Redis, Rabbit MQ, and Docker, ensuring robust and scalable applications. Demonstrates expertise in RESTful API integration, prioritizing optimal performance. Adept at troubleshooting complex technical issues and fostering collaboration within teams. Enthusiastic about adopting new technologies and methodologies, with a sharp focus on innovation. Flourishes in fast-paced, results-oriented environments, leveraging strong analytical and problem-solving capabilities. Prepared to contribute extensive experience and a dedication to excellence to your team.

SKILLS AND EXPERTISE

PHP, Laravel, Postman, Nginx,
Apache, Api Documentation,
RESTful API.

HTML, CSS, Bootstrap, JavaScript,
Vue JS, Api Integration Tailwind
CSS, Vuex.

PostgreSQL, DB design, MySQL,
SQL, Redis.

Docker, AWS, Jenkins, RabbitMQ,
Nginx, Linux (Ubuntu), GitHub
CI/CD pipeline.

Jira, TDD, DDD, OOP, Agile
methodology, Microservices &
Monolith Architecture.

AWS EC2 instance, S3 Bucket.

EDUCATION

B.Agric. Agricultural Economics –
Niger Delta University, Bayelsa,

NOVEMBER 2018

EXPERIENCE

Full Stack Developer (PHP, Laravel, Vue, Vuex) – Dufuna, Sept. 2021 – Present

- Developed and documented RESTful APIs.
- Converted Figma designs into responsive user interfaces.
- Developed reusable Laravel packages for database migration and email template management, enhancing scalability and maintainability across multiple services.
- Integrated third-party services, such as payment gateways, to provide additional functionality for users.
- Implemented a Continuous Integration/Continuous Deployment (CI/CD) pipeline that reduced time-to-deployment.
- Refactored legacy codebase, improving readability and maintainability, which reduced technical debt and facilitated easier future development.
- Implemented a custom authentication system with JWT, enhancing security and user management capabilities.

Full Stack Developer (PHP, Laravel, Vue) – TenderCo, Dec. 2020 – Aug. 2021

- Contributed to architecture discussions, offering innovative ideas to enhance the platform's capabilities.
- Participate in code reviews, debugging, and troubleshooting to ensure code quality and adherence to best practices.
- Optimized database queries and application performance, reducing server response times by 50% and improving overall application efficiency.

Frontend Developer (Vue js, Bootstrap) – Reach, Jan. 2020 – July. 2020

- Created responsive and user-centric web applications. Collaborate closely with designers to ensure seamless integration of UI/UX designs.
- Integrated RESTful APIs, ensuring seamless data flow and improved application performance.
