

SUMMARY

I help organizations build better online experiences. I create successful software applications that are fast, easy to use, and built with best practices. With modern web technologies, I produce responsive websites and web apps that provide users with the best and most appropriate experience suited to their device and browser.

SKILLS

Client-side: JavaScript, Typescript, React, Redux, jQuery, GraphQL, HTML5, CSS3, SASS, Tailwind, ES6, NextJS

Server-side: MySQL, Nodejs, MongoDB, Express, Ruby, RoR

Tools & Methods: WordPress, Git, GitHub, Jest, Netlify, Responsive Development, TDD, SEO, Chrome Dev Tools, Webpack, CI/CD, Docker, AWS, Figma, Ui/UX, WordPress

Professional: Advanced Technical Writing, Documentation, Remote pair programming, Leadership, Mentoring, Agile Development Methodologies and Project Management.

EXPERIENCE

AFRIKBRAND LIMITED

Software Engineer - FULL-TIME

Remote

Feb 2022 – Present

- Utilized frontend frameworks such as React and Typescript to create dynamic and interactive user experiences, resulting in a 78% improvement in overall application performance.
- Utilized strategic engineering procedures to maintain and improve the company's point of sales system feature that was built through WordPress and React.
- Achieved 15% more efficiency by testing software for defects and operating speed, resolving bugs, and documenting procedures.

MICROVERSE

Mentor

Remote

Oct 2021 – May 2022

- Mentored 3 Junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance by 70%.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

DRELUGS LIMITED

Software Engineer - FULL-TIME

Surulere, Lagos, Nigeria

June 2020 – Oct 2021

- Led the development of responsive and intuitive user interfaces for web applications, resulting in a 100% increase in user engagement and an 80% improvement in user satisfaction.
- Collaborated closely with UI/UX designers and backend developers, translating design concepts into functional code, and reducing development time by 27%.
- Enhanced application features to effectively fix bugs and optimize overall performance, reliability, and efficiency.

Figorr (Formerly GRICD INTEGRATED SERVICES)

Software Engineer - INTERNSHIP

Ikeja, Lagos, Nigeria

May 2019 – March 2020

- Involved in SDLC processes like requirement analysis, designing, coding, testing, releasing and providing maintenance, and documentation at each stage.
- Proficiently troubleshoot simple and complex IoT technological issues for different assigned projects, achieving over 95% customer satisfaction rate.
- Utilized agile software development practices, data and testing standards, code reviews, source code management, continuous delivery, and software architecture.

EDUCATION

MICROVERSE

Oct 2021 – May 2022

Remote Full Stack Web Development Program, Full-Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard Git flow, and daily standups to communicate and collaborate with international remote developers.

IMO STATE POLYTECHNIC**HND, Chemical Engineering**

Aug 2015 – Oct, 2017

- Acquired in-depth knowledge and skills in the design, manufacturing, and operation of industrial plants and machinery for large-scale chemical, biological, and related processes.
- Developed the ability to innovate and adapt substances, contributing to the creation of a diverse range of products through the application of chemical engineering principles.
- Honed problem-solving skills by addressing complex challenges encountered in chemical engineering projects, fostering an analytical and solution-oriented mindset.
