

Etom Etom Usang

10 Dozie Way, Off Ikot Ekpene Road, Umuahia • Umuahia, Abia State Nigeria • Tel: +2349055589180 • Cell: +2349035551687 • laiveetom@gmail.com

Objective

Detail-oriented and passionate PHP developer with a strong foundation in modern web development technologies. Eager to leverage hands-on experience in building scalable, secure, and high-performance applications using PHP, Laravel, and MySQL. Looking to contribute to innovative projects in a dynamic environment where I can enhance my skills in backend development, API integration, and database optimization while delivering exceptional results that drive business growth.

Work Experience

05/2018 - SinfoTech Hub, Calabar, Cross River Nigeria

05/2023 *Intern Web Developer*

- Developed simple web applications using PHP and MySQL, improving user experience through dynamic, database-driven content.
- Updated and refactored static websites, converting them to PHP-based platforms to provide better functionality for clients.
- Assisted senior developers with debugging and optimizing PHP code, learning best practices for coding and performance improvements.
- Contributed to front-end development using HTML, CSS, and JavaScript, helping to create responsive and user-friendly interfaces.
- Provided support for ongoing web development projects, helping to ensure that they met client expectations and were delivered on time.
- Participated in codebase reviews to correct and refactor where necessary.

06/2023 - Acetact Empire, Lugbe, Federal Capital Territory Nigeria

09/2024 *PHP Web Developer*

- Built and maintained web applications using PHP and Laravel, ensuring that they performed well and met client requirements.
- Helped design and implement MySQL database schemas, focusing on preventing data redundancy and ensuring data integrity.
- Worked with teams to enhance existing websites, making them faster and easier to use by optimizing code and updating features.
- Contributed to the development of WordPress sites, improving loading times and overall performance.
- Assisted in integrating APIs to add new features to applications, streamlining user interactions with external services.
- Supported project deployments by handling code uploads and server configurations.
- Reviewed existing codebases and refactored them where necessary to improve performance.
- Extended already existing projects to include new features that often lead to increased Customer satisfaction.

Education

2018 - 2023 University of Calabar, Calabar, Calabar, Cross River Nigeria
B Sc. in Public Health GPA: 3.75
