Summary

As a seasoned and an accomplished software developer with a mastery of JavaScript, PHP, Python, and other programming languages, I bring over 5 years of experience in software design, development and integration. With a proven track record of delivering high-quality projects on time and within budget, I am confident in my ability to contribute to any team. I am particularly skilled in using frameworks such as Node JS, Nest JS, Express JS, React and Redux, PHP (Laravel) to build scalable, performant web applications. I also have experience with Python and its web frameworks like Django and Flask for developing backend services. Additionally, I have experience with project requirements gathering, analysis and development.

Skills

- **Programming Languages:** PHP, JavaScript, Typescript, Python.
 - **Backend Frameworks:** Node JS, Nest JS, Express JS, Laravel, Django
 - **Frontend Frameworks/Libraries:** React, Redux, Context API, Angular, jQuery, CSS, Bootstrap.
 - **Database Skills:** MySQL, PostgreSQL, MongoDB.
 - **Cloud/DevOps Skills:** AWS, Terraforms, Circle CI, Docker.
 - **Version Control System:** GIT
 - **Test Skills:** PHP Unit/Jest.
 - **APIs:** XML and REST APIs Development and Integration.
-

Experience

SENIOR SOFTWARE ENGINEER | 04/2023 - Current

ITEX INTEGRATED SERVICES - Nigeria

- Developed Biometric Transaction Switch Service for POS terminals and ATMs, enhancing payment accessibility.
- Developed a Value-added Services (VAS) system which involves the integration of different third parties APIs like (Electricity, Airtime, Data, Cable TV, Transfer, Withdrawals).
- Developed electricity and Airtime purchasing platform that processes millions of transactions monthly
- Developed comprehensive unit and integration tests using PHP Unit Test to ensure robust API functionality and prevent regression

Technologies: Utilizes a diverse set of technologies including PHP, Laravel, MySQL, Integrations (Including Payments), Redis, GIT, REST APIs, AWS, MongoDB, Docker/Containerization

FULL STACK DEVELOPER | 02/2021 - 03/2023

CONTEC GLOBAL (NOWNOW DIGITAL SYSTEM LTD) - Nigeria

- Spearheaded the development of a revenue collection automation System which lead to increase in revenue collection efficiency in the given state (Edo state and Niger state, Nigeria)
- Spearheaded the development of a central payment processing platform that integrated all major payment services providers in Nigeria.
- Developed comprehensive unit and integration tests using Jest to ensure robust API functionality and prevent regressions
- Worked with cross-functional teams which include QA, other Developers and project Managers to enhance collaboration.

Technologies: Utilized a diverse set of technologies including PHP, Laravel, Database (MySQL, PostgreSQL), Version Control System (GIT), REST APIs, Payment Gateways and Different third parties' integration

WEB DEVELOPER | 01/2020 - 12/2020

PROXNET COMMUNICATIONS LTD – Nigeria

- Added new features to an existing school management solution while also maintaining the existing functionalities.
- Developed an in-house HR management platform that enhanced and sped up all HR and accounting activities.
- Completely eliminated all manual accounting processes and payroll management was automated 100%.
- Developed a real time port activities tracking and management solution which track and update on the status of voyages.

Technologies: Utilized a diverse set of technologies including PHP, MySQL, REST APIs, JavaScript, Linode Servers, HTML5, CSS3, Bootstrap

Education and Training

Udacity - ALX, Nigeria

DevOps, 2022

Moat Academy for Developers - Nigeria

Coding Bootcamp, Software Development

Auchi Polytechnic - Nigeria

Civil Engineering Technology
