Profile

With over 5 years of experience as a web application developer, I am adept at end-to-end development, from front-end React and Vue.js to Node.js and PHP(Laravel) for server-side execution. My biggest career achievement includes significantly enhancing a project management tool, advancing both user experience and team productivity

Experience

Software Engineer | Altara Credit Limited | Remote | July 2019- October 2024

- Spearheaded the integration of RESTful APIs in web applications, enabling real-time data synchronization across platforms.
- Optimized existing web applications, resulting in a 40% reduction in load times and a 25% increase in user engagement.
- Pioneered the use of Vue3 in our projects, leading to a more efficient development cycle and a reduction in code redundancy.
- Collaborated closely with project managers to align technical solutions with business objectives, contributing to an annual revenue increase of 15%.
- Implemented comprehensive unit testing protocols that decreased bug occurrences by 50%, enhancing application stability.

Tools Used: Reactjs, PHP, Laravel, Vuejs, ReactNative, Git, AWS, Tailwind CSS, MySQL, etc

Full Stack Engineer | Elta Solutions | August 2017 – June 2019

- Developed custom application workflows, improving operational efficiency by 20% for our key clients.
- Authored high-quality HTML, CSS, and JavaScript code for dynamic web applications used by over 10,000 users.
- Initiated a peer code review process that improved code quality and reduced post-deployment errors by 35%.
- Managed JSON data transfer within applications, ensuring accurate and efficient data handling

Tools Used: React.js, PHP, Fat-Free Framework, Gitlab etc

Junior Software Engineer | The GIG Group | June 2015– August 2017

- Developed a variety of business workflows that streamlined client operations by 25%.
- Enhanced application security protocols, reducing vulnerability exposure by 60%.

- Coded new features for high-traffic web applications, directly impacting a user base growth of 15%.
- Participated in client briefing sessions to clearly understand project scope and deliver accurate technical solutions.

Tools Used: C#, .Net, Github, Java, etc

Projects

1 – ISM-Eportal

Skills Used: PHP, Laravel, ReactJS, Bootstrap, MySql.

An e-learning application is written with PHP Laravel for the backend and ReactJs for the font end. CI was done with Github, the API was hosted on Heroku while the frontend was hosted on Netlify.

2 –Altara Management Portal

Skills Used: PHP, Laravel, ReactJS, Bootstrap, MySql.

A Mega application consisting of different modules written with PHP Laravel for the backend and VueJs for the font end. CI was done with Github, the API was hosted on Heroku while the frontend was hosted on Netlify.

The codebase can be found at <https://github.com/AltaraNg/Altara-1.0> and <https://github.com/AltaraNg/Altara-vue>

Education

Obafemi Awolowo University, Ile-Ife
BSc, Computer Engineering
Feb, 2011 – March, 2016

Skills & Abilities

Key Strength

DevOps: Git, Linux

Front End: HTML5, CSS3, Javascript, Vue.js, Angular, React

Back End: Node.js, Laravel, PHP, GoLang. Databases: MongoDB, PostgreSQL, Sqlite3, Firebase, Mysql.

Others

Mobile: React Native.

Back End: Python. Databases: GraphQL

Activities and Interests

Theater, environmental conservation, chess, hiking, travel
