Professional Summary

Passionate Full Stack Developer with over 5 years of hands-on experience in building, deploying, and scaling web and mobile applications using JavaScript and its powerful frameworks like React.js, Next.js, Node.js, and React Native. A natural problem solver with a unique blend of engineering precision from my background in civil engineering, coupled with a relentless drive to stay updated with the latest in web technologies. I Excel in both frontend and backend development, delivering user-centric solutions that meet business goals.

Skills

- **Languages:** JavaScript, TypeScript, HTML, CSS, SQL
- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, Bootstrap
- **Tools & Platforms:** Git, Docker, AWS, Firebase, Vercel,
- **Backend:** Node.js, Express.js, RESTful APIs, GraphQL
- **Mobile:** React Native
- **Database:** MongoDB, MySQL, PostgreSQL
- **Testing:** Jest, Cypress, Mocha, Chai

Work History

05/2022 to 07/2024 **Full Stack Developer | eHealth Africa**

- *eHealth Africa (Remote) –Nigeria*
- Developed a custom health information system using Next.js, Node.js, and TypeScript to streamline data collection and reporting for healthcare workers.
- Built a cross-platform mobile application with React Native to support field data collection, enhancing accessibility for users in remote areas.
- Led a team of developers in implementing GraphQL for efficient data retrieval, cutting down server response times by 20%.
- Collaborated with international partners to ensure the application met global health standards and regulations.

05/2019 to 02/2022 **Frontend Developer | Mono**

Momo (Remote) --Nigeria

- Spearheaded the development of Mono's user dashboard using React.js and Redux, focusing on creating a clean and intuitive user interface that led to a 25% increase in user engagement.
- Integrated TypeScript to enhance code quality and maintainability, reducing the number of bugs reported by 15%.
- Worked closely with backend developers to ensure seamless data flow between the frontend and the backend, using RESTful APIs.
- Conducted regular code reviews and provided mentorship to junior developers, fostering a culture of continuous learning.

04/2019 to Present

Freelance Full Stack Developer

Self-Employed -Remote

- Delivered custom web applications for small businesses and startups using React.js, Next.js, and Node.js, resulting in a 50% increase in client online presence.
- Developed and launched mobile apps for clients using React Native, ensuring cross-platform compatibility and a seamless user experience
- Worked closely with clients to gather requirements, design solutions, and implement features, ensuring projects were completed on time and within budget.
- Optimized applications for performance and scalability, leading to a 30% reduction in load times and a 20% increase in user retention.
- Provided ongoing maintenance and updates for existing client projects, improving security and adding new features based on user feedback.

Education

2016 - 2021

B. Eng: Civil Engineering

Micheal Okpara University – Abia State (Nigeria)

- Developed strong analytical and problem-solving skills, which I now apply in software development to design and implement efficient, scalable solutions.
- Completed a final year project involving the use of software for structural analysis, sparking my interest in programming and leading to my eventual transition into full-stack development.

Certifications

- **AWS Certified Developer – Associate** | Amazon Web Services | 2022.
 - **React.js Developer Certification** | Coursera by Meta | 2021.
 - **Coursera - Meta Front-End Developer Professional Certificate** | 2022
-
