2. PROFESSIONAL SUMMARY

Adaptable full-stack web developer with a strong foundation in mathematics and hands-on experience in both front-end and back-end technologies, including Laravel, Vue.js, and React. Skilled in creating responsive, high-quality websites for banking, corporate, and government clients, with a focus on user-centric, scalable solutions. Currently advancing into mobile app development with React Native and driven by continuous learning and a problem-solving approach. Open to collaborative roles that emphasize innovation and efficiency.

3. TECHNICAL SKILLS

- **Front-End Development:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Vue.js, Alpine.js, React.js
- **Back-End Development:** PHP, Laravel
- **Mobile Development:** React Native (*in progress*)
- **Design and Animation Tools:** CorelDraw, Photoshop, Illustrator, Aurora 3D
- **Productivity and Office Software:** Microsoft/Libre Office Suite (Word, Excel, PowerPoint, Outlook)
- **Other Tools:** Linux, Git, GitHub, MySQL, Docker

4. PROFESSIONAL EXPERIENCE

Founder and Lead Developer: Wireless Computer Services | 2022 - Present

- Developed and deployed custom websites and applications tailored to client needs in fields such as banking, corporate sectors, government agencies, and individual portfolios.
- Spearheaded full-scale projects from requirement gathering and design to development and launch, ensuring each product met modern standards for performance, security, and user experience.
- Leveraged a combination of Laravel for back-end development and Vue, Tailwind CSS, and Alpine.js for front-end design to create responsive, high-performing applications.
- Consistently achieved client satisfaction through effective communication, timely project delivery, and alignment with client objectives.

Media Coordinator: First Baptist Church, Igede Ekiti, Nigeria | 2015 – 2018

- Led the Media Department, overseeing audio-visual setups, technical support, and live service broadcasts, ensuring smooth media operations.
- Provided strategic advice to the media team on equipment upgrades, event organization, and digital outreach, enhancing service quality and engagement.
- Continued as a general adviser to the Media Department after stepping down from formal responsibilities in 2018.

Secretary to the Pastor and Ekiti Baptist Conference Chairman: *First Baptist Church, Igede Ekiti, Nigeria | 2015 – 2018*

- Managed schedules, correspondence, and document organization for the Pastor, who also chaired the Ekiti Baptist Conference, ensuring smooth administrative operations.
- Developed strong communication and organizational skills by coordinating between the church and regional conference activities.

Computer Teacher: *Freelance and First Baptist Church N/P | 2016 – 2018*

- Taught computer fundamentals and Microsoft Office tools to students, contributing to community knowledge and digital literacy.
- Advised the Media Department on digital initiatives and content creation, fostering a collaborative environment for tech innovation within the church.

Intern and Computer Apprentice: *Computer Center, Igede Ekiti, Nigeria | November 2014 – August 2015*

- Completed a 9-month apprenticeship in computer operations, learning skills in Microsoft Office, graphic design, and animation with Aurora 3D.
- Gained hands-on experience with productivity software, setting the foundation for future expertise in technology and web development.

University Internship and Freelance Web Development: *Akure, Nigeria | Ongoing during University Education (2018 – 2024)*

- Worked with a local computer firm, gaining industry insights and enhancing technical proficiency.
- Successfully completed freelance projects, building customized websites for clients, which provided practical experience and a portfolio of diverse web development work.

KEY ACHIEVEMENT

- Grew client satisfaction through effective communication, meeting 100% of project deadlines.
- Successfully delivered over 20 client projects, consistently meeting deadlines and improving client engagement by optimizing website performance.”
- Reduced project development time by 30% through efficient front-end and back-end integration with Laravel and Vue.js.

5. EDUCATION

FEDERAL UNIVERSITY OF TECHNOLOGY, AKURE (FUTA)

Bachelor of Technology (B.Tech) in Industrial Mathematics | 2018 – 2024

Graduated with a Second-Class degree, focusing on the mathematical foundations of algorithmic thinking and data-driven problem-solving.

Key coursework included Numerical Analysis, Partial and Ordinary Differential Equations, Linear and Abstract Algebra, fluid and solid mechanics Metric Space Topology and Statistics, enhancing analytical skills directly applicable to web development.

Completed a final-year project on Linear multistep block method for integrating second order ordinary differential equations.

Senior Secondary Education

Ogbomoso, Oyo State, Nigeria | Completed in 2014

Graduated with a focus on mathematics and sciences, developing a strong base in analytical reasoning.

Primary School Leaving Certificate

Igede Ekiti, Ekiti State, Nigeria | Completed in 2008

6. CERTIFICATIONS AND COURSES

- **Full Stack Web Development** – Coursera (2023)
- **PHP for Beginners** – Udemy (2022)
- **Front-End Development with JavaScript** – freeCodeCamp (2022)
- **Responsive Web Design** – freeCodeCamp (2022)
- **Version Control with Git** – edX (2023)
- **Introduction to React** – LinkedIn Learning (2024)
- **Mobile App Development with React Native** – Udemy (2024) (*in progress*)
- **Cybersecurity Essentials** – Cisco Networking Academy (2023)
- **Data Structures and Algorithms** – Coursera (2023)
- **User Experience (UX) Design Fundamentals** – Google (2023)

Courses completed through self-study to deepen technical expertise, with certificates obtained where accessible.

7. PROJECTS AND PORTFOLIO

- **Banking Sector Website:** Developed a secure, user-friendly website for a banking institution, focusing on security, user experience, and ease of navigation for optimal customer interaction.
- **Government Agency Website:** Created a fully responsive and accessible platform for a government agency, implementing interactive features and information management systems.
- **Corporate and Portfolio Websites:** Designed and launched multiple portfolio sites and corporate landing pages tailored to clients' brand identity, ensuring high visual standards and SEO optimization.

(View portfolio at <https://www.wirelesscs.com/dayo>)

8. AWARDS, VOLUNTEER WORK AND COMMUNITY DEVELOPMENT

- **Open-Source Contributions:** Recognized for active participation in the open-source community, contributing to collaborative projects and sharing valuable resources on platforms like GitHub and Stack Overflow. Consistently supports best practices in coding, documentation, and project management within open-source teams.
- **Competitions and Hackathons:** Awarded in multiple coding competitions and hackathons, demonstrating a strong aptitude for innovation, problem-solving, and

teamwork. Achievements in these events highlight technical skill, adaptability, and the ability to perform under pressure.

- **Tech Mentorship and Community Support:** Volunteered as a mentor within the tech community, guiding beginner developers in foundational web development skills and best practices. Regularly provided support and feedback, creating an inclusive and growth-focused environment for aspiring developers.
- **Media Department Leadership:** Actively mentored junior developers and new team members in the Media Department of First Baptist Church, Igede Ekiti. Guided them in technical setup, content creation, and digital strategy, fostering a collaborative learning environment that continues to benefit the team.
- **Social Media and Online Community Engagement:** Contributes extensively on social media and Stack Overflow, offering insights, technical solutions, and encouragement to the global tech community. Known for providing constructive feedback, answering questions, and sharing industry knowledge with fellow developers.
- **Community Workshops and Knowledge Sharing:** Organized and participated in local workshops and webinars focused on web development, cybersecurity, and new technology trends. These initiatives not only enhanced personal expertise but also supported community-wide tech literacy and engagement.

9. LANGUAGES AND INTERESTS

Languages

English:	Fluent
Yorùbá:	Native proficiency
Pidgin English:	Conversational

Interests

- **Emerging Web and Mobile Technologies:** Passionate about staying current with advancements in frameworks like Laravel and React Native, continually expanding skills in both web and mobile development.
- **Tech Community Engagement:** Actively participates in forums like Stack Overflow and social media to share knowledge, provide support, and contribute insights to the developer community.
- **Open-Source Collaboration:** Committed to contributing to open-source projects that drive innovation and provide hands-on problem-solving experience, working alongside global teams to enhance software development practices.
- **Blogging on Tech Topics:** Dedicated to sharing insights and tutorials on web development, mobile frameworks, and tech trends through blogging, helping others understand complex concepts in accessible ways.
- **Digital Art and Animation:** Enjoys creative pursuits in digital illustration and animation, enhancing UI/UX projects with a unique artistic perspective.

10. SOFT SKILLS AND PROFESSIONAL DEVELOPMENT

- **Leadership:** Successfully led media and technical teams, ensuring resource coordination, effective task management, and successful event outcomes. Known for fostering a collaborative environment and encouraging continuous improvement among team members.
- **Adaptability:** Quickly adapts to new tools and environments, transitioning seamlessly from academic learning to professional application. Demonstrated flexibility and resilience in tackling challenges within fast-paced, evolving tech settings.
- **Client Communication:** Skilled in gathering client requirements, translating business needs into actionable solutions, and delivering high-quality results aligned with project goals. Strong ability to manage expectations and build lasting professional relationships.
- **Analytical Thinking:** Proficient in breaking down complex problems into manageable tasks, applying logical reasoning to enhance project efficiency and troubleshoot issues swiftly. Draws on a mathematical foundation to approach challenges with precision and creativity.
- **Active Professional Development:** Regular participant in local tech meetups, webinars, and industry workshops on topics such as cybersecurity, UX/UI design, and API development. Constantly seeks out opportunities to stay informed on industry trends and improve technical proficiency.

11. CURRENT LEARNING FOCUS

- **React Native for Mobile Development:** Actively advancing skills in React Native to build robust, cross-platform mobile applications. Focusing on creating responsive, high-performance apps that align with industry standards in user experience and efficiency.
- **AI-Driven Web Applications:** Exploring AI integration in web development, with a specific interest in applying machine learning for recommendation engines, natural language processing, and data-driven personalization. Committed to leveraging AI to build smarter, more intuitive web applications that enhance user engagement.
- **Cybersecurity and Penetration Testing:** Developing a strong foundation in cybersecurity, specializing in penetration testing methodologies to identify and mitigate vulnerabilities in web applications. Focusing on secure coding practices, data protection, and compliance to ensure resilient, user-safe applications.
- **Progressive Web Apps (PWA):** Learning to create Progressive Web Apps to offer app-like experiences on the web, with offline capabilities and enhanced performance, to provide users with more accessible and responsive interactions.
- **Cloud-Based Development:** Engaging in cloud technology basics, focusing on services like AWS and Azure for scalable web solutions. Learning to incorporate cloud infrastructure to improve deployment speed, data storage, and operational efficiency for applications.
