

Barida Barry Leadu

Entry Level Web Developer

Passionate and skilled **Full Stack Web Developer** with expertise in **Vue.js, React.js, Laravel, Node.js, and DevOps**. Adept at building dynamic front-end experiences, developing efficient APIs, and deploying applications on **cloud and VPS servers**. Strong problem-solving ability and a commitment to clean, maintainable code. Looking for opportunities to contribute and grow in a collaborative team environment.

WORK EXPERIENCE

Yeastycode

Web Developer Intern

Lagos NG | August 2019 - February 2022

- Developed and maintained web applications using Vue.js for front-end and Laravel for back-end.
- Built and optimized RESTful APIs, improving performance and security.
- Deployed applications on cloud and VPS servers, managing updates and troubleshooting issues.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Implemented DevOps best practices to streamline deployment and testing.

AvataWorks

Full Stack Web Developer

Lagos NG | June 2022 - September 2024

- Designed and developed full-stack web applications for various clients.
- Created responsive and user-friendly UI components using React.js and Vue.js.
- Integrated third-party APIs and built custom back-end solutions with Node.js and Laravel.
- Managed deployment, hosting, and security for client projects on cloud platforms.

PROJECTS

First Timers App

Tech Stack: React.js, laravel, MySQL, Docker

- Developed an app to help manage and update first timers and it's presently being used.
- Grew the app over time to be more robust and included more features.
- It really solved the problem of using spread sheets to track and keep up with first timers, as it made the process more dynamic and fast.
