### Summary

Full Stack Web Developer with expertise in Laravel, Vue.js, Nuxt, and DevOps tools. Experienced in building scalable, performance-driven web applications with a focus on clean code and seamless user experiences. Passionate about integrating artificial intelligence solutions to enhance functionality and solve real-world problems, while staying updated with industry advancements.

### Professional Experience

#### Ronazon Limited – Port Harcourt

*Full Stack Developer (Jan 2022 – Present)*

- Developed modular web applications with Laravel (backend) and Vue.js/Nuxt (frontend), reducing deployment time by 15%.
- Built RESTful and GraphQL APIs to power client-facing and internal tools, improving data retrieval efficiency.
- Collaborated with cross-functional teams to launch features on time, maintaining 95% bug-free releases.
- Ensured code quality with unit tests and streamlined deployments using Git.

#### Aptiw – Port Harcourt

*Backend/Frontend Developer (Jun 2021 – Dec 2022)*

- Engineered custom backend services and reusable Vue.js components, enhancing platform scalability.
- Integrated third-party APIs, cutting page load times by 25% through optimization.
- Refactored legacy code, reducing technical debt and improving maintainability by 30%.
- Delivered iterative updates in Agile sprints, meeting all project deadlines

#### NYSC, Cross River State

*Mathematics and Physics Teacher (2016 – 2017)*

- Delivered engaging STEM lessons tailored to meet the academic needs of secondary school students.
- Organized extracurricular STEM events to spark student interest in science and technology.

## Education
