Frontend Developer | Website Developer

Highly skilled and motivated front-end developer with 4+ years of experience in creating visually appealing and user-friendly websites and applications. Proficient in HTML, CSS, JavaScript, and React. Passionate about creating accessible, responsive, and efficient designs that provide exceptional user experiences.

Work Experience

Industrial Trainee

01/2019 - 07/2019

Warri Refinery and Petrochemical Co. Ltd

- I was actively involved in the fuel production process, gaining firsthand experience in various stages of refining crude oil into usable fuels like gasoline and diesel.
- I assisted in monitoring equipment, ensuring optimal operating conditions, and analyzing data from different production units such as distillation towers and catalytic converters.
- I worked closely with engineers to troubleshoot issues, perform routine maintenance, and ensure compliance with safety and environmental regulations. This experience provided me with a solid understanding of refinery operations, process control, and the importance of efficiency in fuel production.

Front End Developer

04/2022 - 08/2022

ZST Technologies Abuja, Nigeria

- Increased user experience by implementing a new ui.
- Increase app performance and reduce app size by updating legacy code. Improved team productivity by engaging in sprint planning.
- Improved code readability and reusability by building out reusable react
- components.
- Translated flat design files to clean, accessible and interactive user experiences.
- Reduced redundancy by rewriting and combining redux-tool-kit slices. Technologies used: javascript, typescript, git lab, redux-tool-kit, react.

Front End Developer

03/2022 - 08/2024

Axxon International Abuja, Nigeria

- Increased user experience by implementing a new ui.
- Increase app performance and reduce app size by updating legacy code.
- Improved team productivity by engaging in sprint planning.
- Improved code readability and reusability by building out reusable react components.
- Led the development of a new dashboard feature, improving data visualization and accessibility for users, resulting in a 25% increase in user engagement and positive feedback.
- Technologies used: javascript, git lab, redux, figma, wordpress.

Front End Developer

03/2024 - 04/2024

TimHockri

- I spearheaded the development of a new landing page aimed at enhancing user engagement and conversion rates using Next js, typescript and tailwind css.
- Collaborating closely with our design and teams, I ensured the page not only reflected the brand's essence but also optimized user experience through clear, compelling content and intuitive navigation.
- Integrated Material Ui to design and render precise, high-quality SVG diagrams for mathematical and technical content on the page, improving visual clarity and user comprehension.
- Utilizing google analytics, we fine-tuned the page to maximize its effectiveness, resulting in a significant SEO boost and customer retention.

Front End Developer

11/2023- 12/2023

Dominic Joshua Foundation

- Collaborating closely with the foundation's stakeholders, I worked to translate their vision into a visually engaging and user-friendly design concept within WordPress. By utilizing custom themes and plugins, I created a responsive landing page that ensured a seamless experience across multiple devices and screen sizes. Additionally, I implemented performance optimization strategies, focusing on reducing page load times and improving overall site performance for a faster, smoother user experience.

React Native Developer

August 2024- December 2024

Alphatecks technologies

- Led the development of the Ollie Ride mobile application, a ride-sharing platform, using React Native for cross-platform mobile development.
- Integrated React Navigation to streamline navigation and enhance user experience across the app.
- Collaborated with the design and product teams to ensure the app met

functional and aesthetic requirements, delivering a seamless experience for riders and drivers.

- Implemented various app features, including ride booking, real-time tracking, and payment integrations.
- Focused on optimizing app performance, ensuring smooth transitions, and maintaining responsiveness across different devices

React Developer

December 2024- present

Esemie

- Developed and maintained a dynamic invoicing web application using React and typescript , improving user experience and functionality.
- Collaborated with cross-functional teams (designers, product managers, backend engineers) to deliver seamless, user-friendly interfaces.
- Integrated RESTful APIs to pull and manage customer and invoice data, ensuring smooth and efficient operations within the app.
- Designed and implemented responsive UI components, enabling a consistent experience across web and mobile platforms.
- Worked on the implementation of features like invoice creation, payment tracking, and client management within the app.
- Utilized state management libraries like Redux for efficient data flow and enhanced app performance.
- Ensured application scalability and performance optimization by refactoring code and implementing lazy loading techniques.
- Contributed to unit testing and automated testing with Jest and React Testing Library, improving app reliability and reducing bugs.
- Assisted in troubleshooting and debugging issues to ensure smooth user operations and minimal downtime.
- Participated in agile development cycles, including sprint planning, daily stand-ups, and code reviews.
- Collaborated in the design and implementation of new features, including customizable invoice templates and real-time payment updates.

Education

Bachelor's Degree in Chemical Engineering

Covenant University

August 2015 - November 2021

- Second class lower division

Masters in chemical engineering

Covenant University

April 2023- August 2024

- Best Engineering Student in Master's
- Distinction

Skills

- HTML5
- CSS3
- JavaScript
- React Js
- Typescript
- TailwindCss
- Github
- Git
- jQuery
- Figma
- Graph Ql
- Problem-Solving and Critical Thinking

Certification

- Diploma in Leadership Development
