TOOLS & PLATFORMS

Frontend: HTML5 | CSS3 | JavaScript (ES6+) | TypeScript | Vue.js | Nuxt.js | React.js | Next.js | Tailwind CSS | Bootstrap | SASS/SCSS | CSS Modules

Backend: PHP | Python | Node.js | Express.js | FastAPI | RESTful APIs | OpenAPI/Swagger | GraphQL

Database: MongoDB | MySQL | PostgreSQL | SQLite | Firebase Realtime DB & Firestore | Prisma | Mongoose | phpMyAdmin

Auth: Firebase Auth | JWT | OAuth2 | Sidebase Nuxt Auth

Hosting & Deployment: Vercel | Netlify | Firebase Hosting | Render | Heroku | cPanel | AWS (EC2 | S3 basics) | Git | GitHub | GitLab | Bitbucket

WORK HISTORY

Nov 2024 - June 2025

Fullstack Web Developer || **RiskSafe** (<https://risksafe.co>)

- Developed a full-featured risk management platform with auditing, reporting, and payment plan capabilities using HTML, CSS, JavaScript (frontend), and PHP (backend).
- Integrated Stripe payments for secure, flexible user subscriptions and plan upgrades.
- Modernized an enterprise application by rebuilding the frontend in Nuxt.js while maintaining the PHP + MySQL backend with seamless RESTful API integration.
- Implemented CI/CD automation using GitHub Actions and cPanel for streamlined deployments and database migrations.
- Built dynamic user dashboards with role-based access, custom alerts, and robust error handling to improve performance and user experience.

Software Developer Intern || **Grandilo Technologies**

May 2024 - Sept 2024

- Built and launched real-world fullstack applications including St. Anthony (church management platform using Nuxt.js and Firebase) and contributed to POSA (POS web/mobile app) with Nuxt (web) and Flutter (mobile).
- Gained hands-on experience with Nuxt.js, Vue.js, Firebase, MongoDB, and Git-based collaboration through agile sprints, team code reviews, and version control practices.

Web Developer (Contract) || **Chensgroup**

March 2024 - June 2024

- Designed and developed two web platforms for an NGO: *NewcomersUnion* (supporting 5,000+ users with events, language tools, and settlement services) and *ChensGroup* (a bilingual information management site with PHP and an admin dashboard for auto-translation).
- Built dynamic, CMS-like features for managing events, peer groups, and volunteers—empowering admins to create and update content seamlessly.
- Focused on performance and accessibility, implementing SEO best practices, fast-loading assets, and fully responsive designs optimized for all devices and browsers.

Software Developer || **Simganic Foods**

Nov 2023 - Jan 2024

- Developed a complete e-commerce platform using HTML, CSS, JavaScript, PHP, and MySQL—featuring a secure Paystack integration, real-time shipment tracking, and a functional ticket-based dispute resolution system.
- Optimized performance and usability by building a lightweight cart/wishlist system, and creating a simplified admin panel for easy product uploads and updates by merchants.

PROJECTS

BudTaste: a fullstack restaurant management platform with multi-role dashboards (Admin, Restaurant, Customer), dynamic menu builders, real-time updates, customer reviews, and order tracking—using Nuxt.js, MongoDB, TailwindCSS, and deployed via Vercel.

IVote: a scalable real-time electronic voting platform with live vote updates via WebSockets, tamper-proof MongoDB backend, and secure one-person-one-vote logic—built with Nuxt.js, TailwindCSS, and deployed on Render.

ChatMe: a lightweight real-time chat widget with WebSocket-based messaging, MongoDB persistence, moderation tools, and embeddable Nuxt.js frontend—designed for use in support systems or third-party sites as standalone chat pages or widgets.

10MAG: Developed a fullstack awareness website in php (<https://10mag.org>) for an NGO - 10 Million African Girls

EDUCATION

Federal University of Agriculture, Abeokuta: *Bachelor of Science (Computer Science)*
