

JUSTICEOPARA

FRONTEND DEVELOPER

PROFILE

Highly skilled and experienced Frontend developer with over 4 years of experience designing and developing responsive, user-friendly web applications. Deep understanding of UI/UX design principles, performance optimization, and cross-browser compatibility. Experienced in state management (Redux, Vuex), build tools (Webpack), and version control systems (Git). A continuous learner and team player, adept at translating business needs into scalable technical solutions.

WORK EXPERIENCE

Homiverse Nigeria (Remote) - Contract

August 2024- Jan 2025

Web Engineer
<https://homiverse.ng>

Homiverse is a seamless digital platform for renting accommodations, featuring vetted apartments, reliable roommate matching, and streamlined property management. Designed an intuitive and secure user experience to revolutionize the housing search and rental process.

- Collaborated with our design team to implement user-friendly interfaces and write clean, maintainable, and efficient code for web applications.
- Engineered and implemented a real-time communication system between customer representatives and users utilizing Firebase, enabling seamless support interactions and enhancing overall customer satisfaction
- Integrated RESTful APIs to enable seamless data management and visualization of users information for administrative oversight.

Tech Stack: Tailwind-CSS, Javascript, Typescript, Axioms, NextJs,SWR

Scelloo Lagos Nigeria (Remote)

JAN 2024 - JUNE 2024

Frontend Developer
<https://scelloo.com>

Scelloo provides cloud applications that boost business efficiency, reduce costs, and foster growth through advanced technologies, automation, data analytics, and business intelligence. Key achievements include:

- Integrating over 10 new features to enhance user engagement and functionality.
- Developing extensive test routines and schedules for various browsers and devices, cutting post-deployment issues by 93%.
- Working with the Quality Assurance team to implement thorough test plans, improving product quality.
- Utilizing modern frontend technologies such as Vue.js, TailwindCSS, Vuex, and JavaScript to create robust user interfaces and update features.

Tech Stack: TailwindCSS, Javascript, Vue.js, Vuex, Nuxt

BleauTech Abuja Nigeria (Remote)

Jan-2022 - Dec 2023

Frontend Developer
<https://bleautech.com>

BleauTech is an innovative technology solution aimed at tackling challenges in the African education sector. Their mission is to transform the teaching and learning experience by providing a platform that empowers both educators and students.

- Developed responsive web pages/components and user-friendly interfaces using HTML, CSS, JavaScript, and ReactJS.
- Implemented secure authentication functionality, streamlined data management, and enhanced API communication.
- Developed and integrated a payment feature into the app, utilizing the provided payment endpoint from the backend.
- Automated the build and deployment process for the app by configuring continuous integration and deployment (CI/CD) with Render.

Tech Stack: Html, CSS, TailwindCSS, Javascript, Axioms, ReactJs,Redux

Rock&Ark UK (Remote)

Jan 2021- Dec 2021

Frontend Developer -Intern
<https://rockandark.org>

Rock&Ark is a media outlet dedicated to exploring and celebrating diverse perspectives through intersectional cultural journalism, focusing on amplifying historically marginalized voices with a feminist and queer lens to foster dialogue, inspire social change, and promote inclusivity and equity.

- Collaborated with our design team to implement user-friendly interfaces and write clean, maintainable, and efficient code for web applications.
- Debug, troubleshoot, and optimize web applications for maximum speed and scalability
- Leveraged frontend technologies, such as HTML, CSS[MUI], JavaScript & React, to deliver robust user interfaces and feature updates.

Tech Stack: Html, CSS, MUI, Javascript, Axioms, ReactJs, Redux

PERSONAL PROJECT

Cryptocore

Developed a comprehensive application for analyzing the digital currency market, focusing on key metrics like price, volume, and market capitalization. Made it user-friendly using the CoinGecko API to retrieve and display cryptocurrencies, allowing users to favorite coins. Implemented secure authentication with Firebase for smooth login and sign-up processes. Managed state efficiently with the Context API to enhance performance and user experience.
