

## Personal Information

**Name:** Hamad Ali

**Cell No:** +923076778780

**Email:** hamad.ali.dev@gmail.com

**Skype Id:** live:.cid.eef20d14fecdff3b

**Address:** Gulberg 2 house #273 ferozepur road lahore pakistan

**Linkedin Profile Link:** <https://www.linkedin.com/in/hamad-ali-b18076150>

**Github Link:** <https://github.com/hamadalidev>

I have a solid background in PHP development, both in core PHP and popular frameworks such as Laravel, CodeIgniter, and Symfony. I have successfully delivered robust and scalable web applications, utilizing the best practices of PHP development. My experience includes designing and implementing efficient database schemas, building RESTful APIs, integrating third-party services, and optimizing application performance.

Furthermore, I possess in-depth knowledge of various Amazon Web Services (AWS) offerings. I have hands-on experience with ECS (Elastic Container Service) for deploying and managing containerized applications, EC2 (Elastic Compute Cloud) for scalable virtual servers, Lambda for serverless computing, ElastiCache for in-memory caching, RDS (Relational Database Service) for managed databases, Load Balancer for distributing traffic, Route 53 for domain management, and other AWS services essential for building robust and scalable applications.

## Experience

**November 2019 - Present**

### **Contrive Solution, Lahore - Senior Software Engineer**

### **Server Side Language**

Php, laravel, livewire, symfony, codeigniter, Node

### **Client Side Language**

Html, Css, JQuery, Angular, Vuejs, Inertia js

### **Database**

SQL server, mysql, PostgreSQL

### **DevOps**

Jenkins, Git, Docker, Vagrant, Hadoop

### **Servers**

Digitalocean, share hosting, E2C

### **AWS**

S3, Lambda, E2C, ECS, ECR, RDS, ElastiCache, Load Balancer, Route 53, Cloud Formation, Security Group

### **Testing**

PHPUnit, API testing, API automation script with postman, Selenium UI testing, appium app testing.

### **Programming Language**

PHP, Laravel, Symfony, codeigniter, Angular, Vue, Node, C++, C#, JAVA, Dart, Android, Flutter, JS,

python, Selenium, Appium, Html, Css

## Projects

### **Fintract** <https://www.fintract.io/en/>

I work on fintract system. Fintract is saas service that provides **OCR** service to users. It has 1.5 Million active users at the moment.

My duties include working as a backend developer using PHP, MySQL, AJAX and frontend developer using HTML, jQuery, and CSS. I was responsible for revamping the architecture of an existing system that was

being programmed PHP, and MySQL for storage. I added multiple **OCR** api's like identify card, driving licence, bank statements etc. I write automation test cases for API and UI with python selenium automation. I added a billing functionality in the project. I added an AWS server-less **lambda** script for performance.

**URL:** <https://www.fintract.io/en/>

#### **Technology stack:**

- PHP
- Laravel
- Node
- Mysql
- Python
- Google vision.
- Selenium

### **Handelsregister** <https://www.handelsregister-api.de/de/>

Handelsregister provide KYC services to users. I added multiple KYC api for handelsregister product. People use our api and get company information.

The German Trade Register (**Handelsregister**) is a register all businesses must be listed in, except for small businesses (Kleinunternehmer), freelancers (Freiberufler) and companies constituted under civil law (GbR).

**URL:** <https://www.handelsregister-api.de/de/>

#### **Technology stack:**

- Laravel
- Mysql
- Angular

### **Clear Mortgage** <https://clearmortgagecapital.com/>

Clear Mortgage Capital helps and facilitates the loan process by automating each and single step of the long

cumbersome loan process. Through the cloud solution, load process is much simpler, quicker and you get

automated alerts about your loan process stage and approvals.

**URL:** <https://clearmortgagecapital.com/>

**Technology Stack:**

- Symfony 4.3
- MySQL

**Milky Way Galaxy Game** <https://milkywaygalaxygames.com/>

I have worked on the complete Milky Way Galaxy Game from scratch. MilkyWayGalaxyGames, is one of the best online gaming shop, we provide in game currencies and Account's for your gaming needs.

We strive to maintain a successful reputation throughout our services.
